

*Sir Walter Edward Davidson*

*Sir Walter Davidson died in office in 1923 as Governor of New South Wales, Australia, after a long and distinguished career as a Senior Colonial Administrator. The photo below shows his arms as inscribed on the external wall at State House, Sydney.*

*There is no record of a formal grant of Arms to Sir Walter Davidson either in London or Edinburgh. We believe that the Sydney inscription is wrong. We have records which indicate that the family used arms which might have looked like this.*
